Recommendation No: 1

The Committee recommends that the Department of Finance:

- *review, and update as required, its resource management guidance for Commonwealth entities under the Public Governance, Performance and Accountability Act 2013 (PGPA Act), having regard to Australian National Audit Office and Joint Committee of Public Accounts and Audit (JCPAA) findings concerning governance in the stewardship of public resources, as well as ANAO Audit Insights on this matter; and*
- *provide the JCPAA with an update on amendments made to resource management guidance to reflect these audit and JCPAA findings.*

Response:

Agreed.

Resource Management Guides (RMGs) and other guidance tools and resources support Commonwealth entities and companies in meeting the requirements of the *Public Governance, Performance and Accountability Act 2013* (PGPA Act) and *Public Governance, Performance and Accountability Rule 2014* (PGPA Rule), and related policies. The RMGs are reviewed and updated in real-time to reflect changes in government policy or Finance law and to take account of recommendations made by Parliamentary Committees and Auditor-General (ANAO) Reports.

Given the nature of real-time updating and the ongoing review of RMGs, it is not possible to provide specific updates made to RMGs. Nonetheless, Finance notes that all reports released by the Committee and ANAO Reports tabled in the Parliament each reporting period are monitored by Finance. Analysis of the commentary and recommendations made is undertaken to identify trends and emerging issues that may require engagement with entities and any amendments to RMGs and other supporting tools and guidance.

Report 492 noted nine key RMGs that assist entities to meet the various requirements under the PGPA Act. A status update on these is provided below:

RMG 126 – Government Business Enterprises

The review of the GBE Guidelines is expected to be completed in 2022-23 and will consider the findings of all recent ANAO audits of GBEs as well as recent updates to legislation, good governance practice and matters identified in other GBE reviews. Digital enhancements to align with the digital first approach will also be undertaken at that time.

RMG 131 – Developing Good Performance Information
