

Dear sir/madam:

I would like to bring to your attention this migration amendment (visa capping) bill 2010 which are really unfair to our student.

I had came to australia for 5years, I really like this country cause every body are so kind and honesty. But recently government lots of policy change are really makes me feel disapointed, of course u can say that study in australia not equal to immigrate in here. However I worked really hard in the restraurant and I have pay tax regularly since I studied cookery, i worked even whole christmas week no break for just want finish 900hours more quicky. It's totally unfair that I worked so hard now change to nothing just because of cap.

Unlike the others, I couldn't give any solution to the new bills. But I just want to say that before you make any decicion please think about thoes helpless student like me.

Thanks

Jiaqi chen
