Subject: Waste management submission
Date: Thursday, 16 January 2020 3:17:17 PM

-a deposit on containers to increase recycling compliance, as in SA

-a separate glass bin

-make the manufacturer/producer legally and financially responsible for the waste their product produces, as in Austria.

<https://austriarecycling.at/en/>

-a national policy on recycling to remove the confusion of differing council policies

Best regards,

Alex Wedd
