The Chairman  
Senate Enquiry into Water Act 2007  
Parliament House  
Canberra ACT

Dear Sir  
In my opinion the water act 2007  
is not in need of amendment.  
The requirement of the rivers for  
sufficient flows to ensure their  
health is of prime importance.  
Over allocation of water for other purposes  
needs to be severely cut and the  
communities along the rivers  
helped to adjust.

Yours faithfully

Ul Zona (S. Mann)
