

Subject: ABC Inquiry
Date: Thursday, 8 September 2011

I am continually growing more concerned as to recent programming decisions by the ABC - particularly television.

It would seem to me that there needs to be a process for more consultation regarding what people want. In my case, the disappearance of Art Nation, Collectors and New Inventors gets rid of programmes I watch every week.

Too many overseas produced dramas appear. I enjoy many of them but locally produced programmes would be a great contribution to our culture and to acting and production jobs.

I feel the ABC should produce, not outsource so much material.

I would appreciate a copy of the results of your Inquiry.

Thank you. Bruce Miller
