Dear Sirs,

Re: Loud Aircraft Noise
over My Home

All day long I have been hearing
Loud aircraft noise, every 5 or 10 minutes
over my home. Late at night
I am awoken by very loud aircraft
noises + very early in the morning.

I am 60 years of age + have
lived in Fremdale, which was a
very quiet suburb of Perth, opposite
a nature reserve + the Canning River.
I have lived here for 30 years
+ brought my family up with my

husband. Our children have left home + we now look after our grandchildren regularly, 2 of them being babies + need our sleep + relaxation to do this very important job properly.

This aircraft traffic is getting much busier + unbearable. We have good insulation in our roof but this does not help with the noise.

I think it is only fair that the rest of Perth SHARES some of this aircraft noise + there should be a curfew on the times aloud to fly over our homes.

I don't use the computer,
hence my written letter to you.

Looking forward to action
being taken to improve ~~this~~
NOISE POLLUTION.

Yours truly
Mrs. Gloria Vaisey
