

5/10/12.

Dear Sir or Madam,
I am writing about part way through my hyperbaric oxygen therapy when funding was withdrawn. I had to stop.

The oxygen was helping my wound & have felt much better in myself. I fell over & I should say the wind blew me over at the beginning of June & got the ulcers through. I had rest at Calvary Hospital then the ulcers broke out on my ankle. I believe if I had funded the treatment the benefits would have continued.

Yours faithfully
