

To All Senators

Dear Honorable Members, I have just become aware of the closing date for written submissions to your inquiry into military superannuation. As President of a small traditional RSL sub branch in Victoria, I have often chaired meetings where grave concerns have been aired re. the military compensation and superannuation schemes and the failure of the current government to live up to promises made prior to coming to power.

Amalgamating service super with civilian super does a grave disservice to serving members and I believe I echo the voices of the members of my club in expressing that. Furthermore, I do not believe it is appropriate to have union representation. More important are representatives from the ex service organisations with appropriate skills and expertise.

I trust that the comments made in this email can be considered.

Yours respectfully, Paul D McCrohan . National Serviceman , Vietnam Veteran , RSL Sub Branch President.
