SENATE INQUIRY: HEALTH INSURANCE AMENDMENT (MEDICARE
FUNDING FOR CERTAIN TYPES OF ABORTION)

I support the “Health Insurance (Certain Types of Abortion) Amendment for the following reasons:

- 1) Gender based abortion is not a necessary medical procedure & should not get Medicare benefits
- 2) Medicare should not waste funds on killing unborn babies
- 3) Aborting a foetus for ‘family balancing’ reasons is disgusting & un-Australian. It should not be supported by tax payer funding
- 4) Gender selective abortion may result in an imbalance of the sexes, which in later years may prove a social disaster.
- 5) Gender selection for cultural or ethnic reasons should not be allowed to happen in Australia. The unborn child should be protected
