

To whom it may concern,

I am sending this email due to the Aircraft noise that is a constant irritant to my peaceful existence.

This is not what i invested in when i made the move to Hilbert next to the town of Armadale.

To not even inform the local residence of the change of flight routs for planes is deplorable at best and smells of pressure from the rich coastal areas, where no doubt, These policy makers and the like live.

Regards

Kevin Grljusich
