Submission to the Inquiry into the Fair Work Amendment (Small Business-Penalty Rates Exemption) Bill 2012

If Penalty rates are abolished then all workers should have the right to abolish work on weekends, after all its the extra money we get from these penalties rates that make working on the weekends less painful, it also helps our families out financially and in these tough times every cent counts. Politicians have no idea of how tough it really is ??? If this bill is introduced please ensure that pretend Senator Xenophon and his excessive income does not exceed those of the industries he will have a direct impact on.
