

Following the public hearing held on 20 April 2023 in Melbourne, Mr Robert Waterman, CEO, Rural Health Tasmania provided the following additional information:

I have attached the (Number of drug-related deaths due to MDMA/ecstasy use in England and Wales from 1993 to 2021: <https://www.statista.com/statistics/470824/drug-poisoning-deaths-mdma-ecstasy-in-england-and-wales/>)

This also demonstrates an increase in MDMA related deaths in the UK with the number of MDMA related deaths almost doubling between 2017 and 2018, a time that was reportedly the peak of pill testing in the UK.

Robert Waterman
Chief Executive Officer

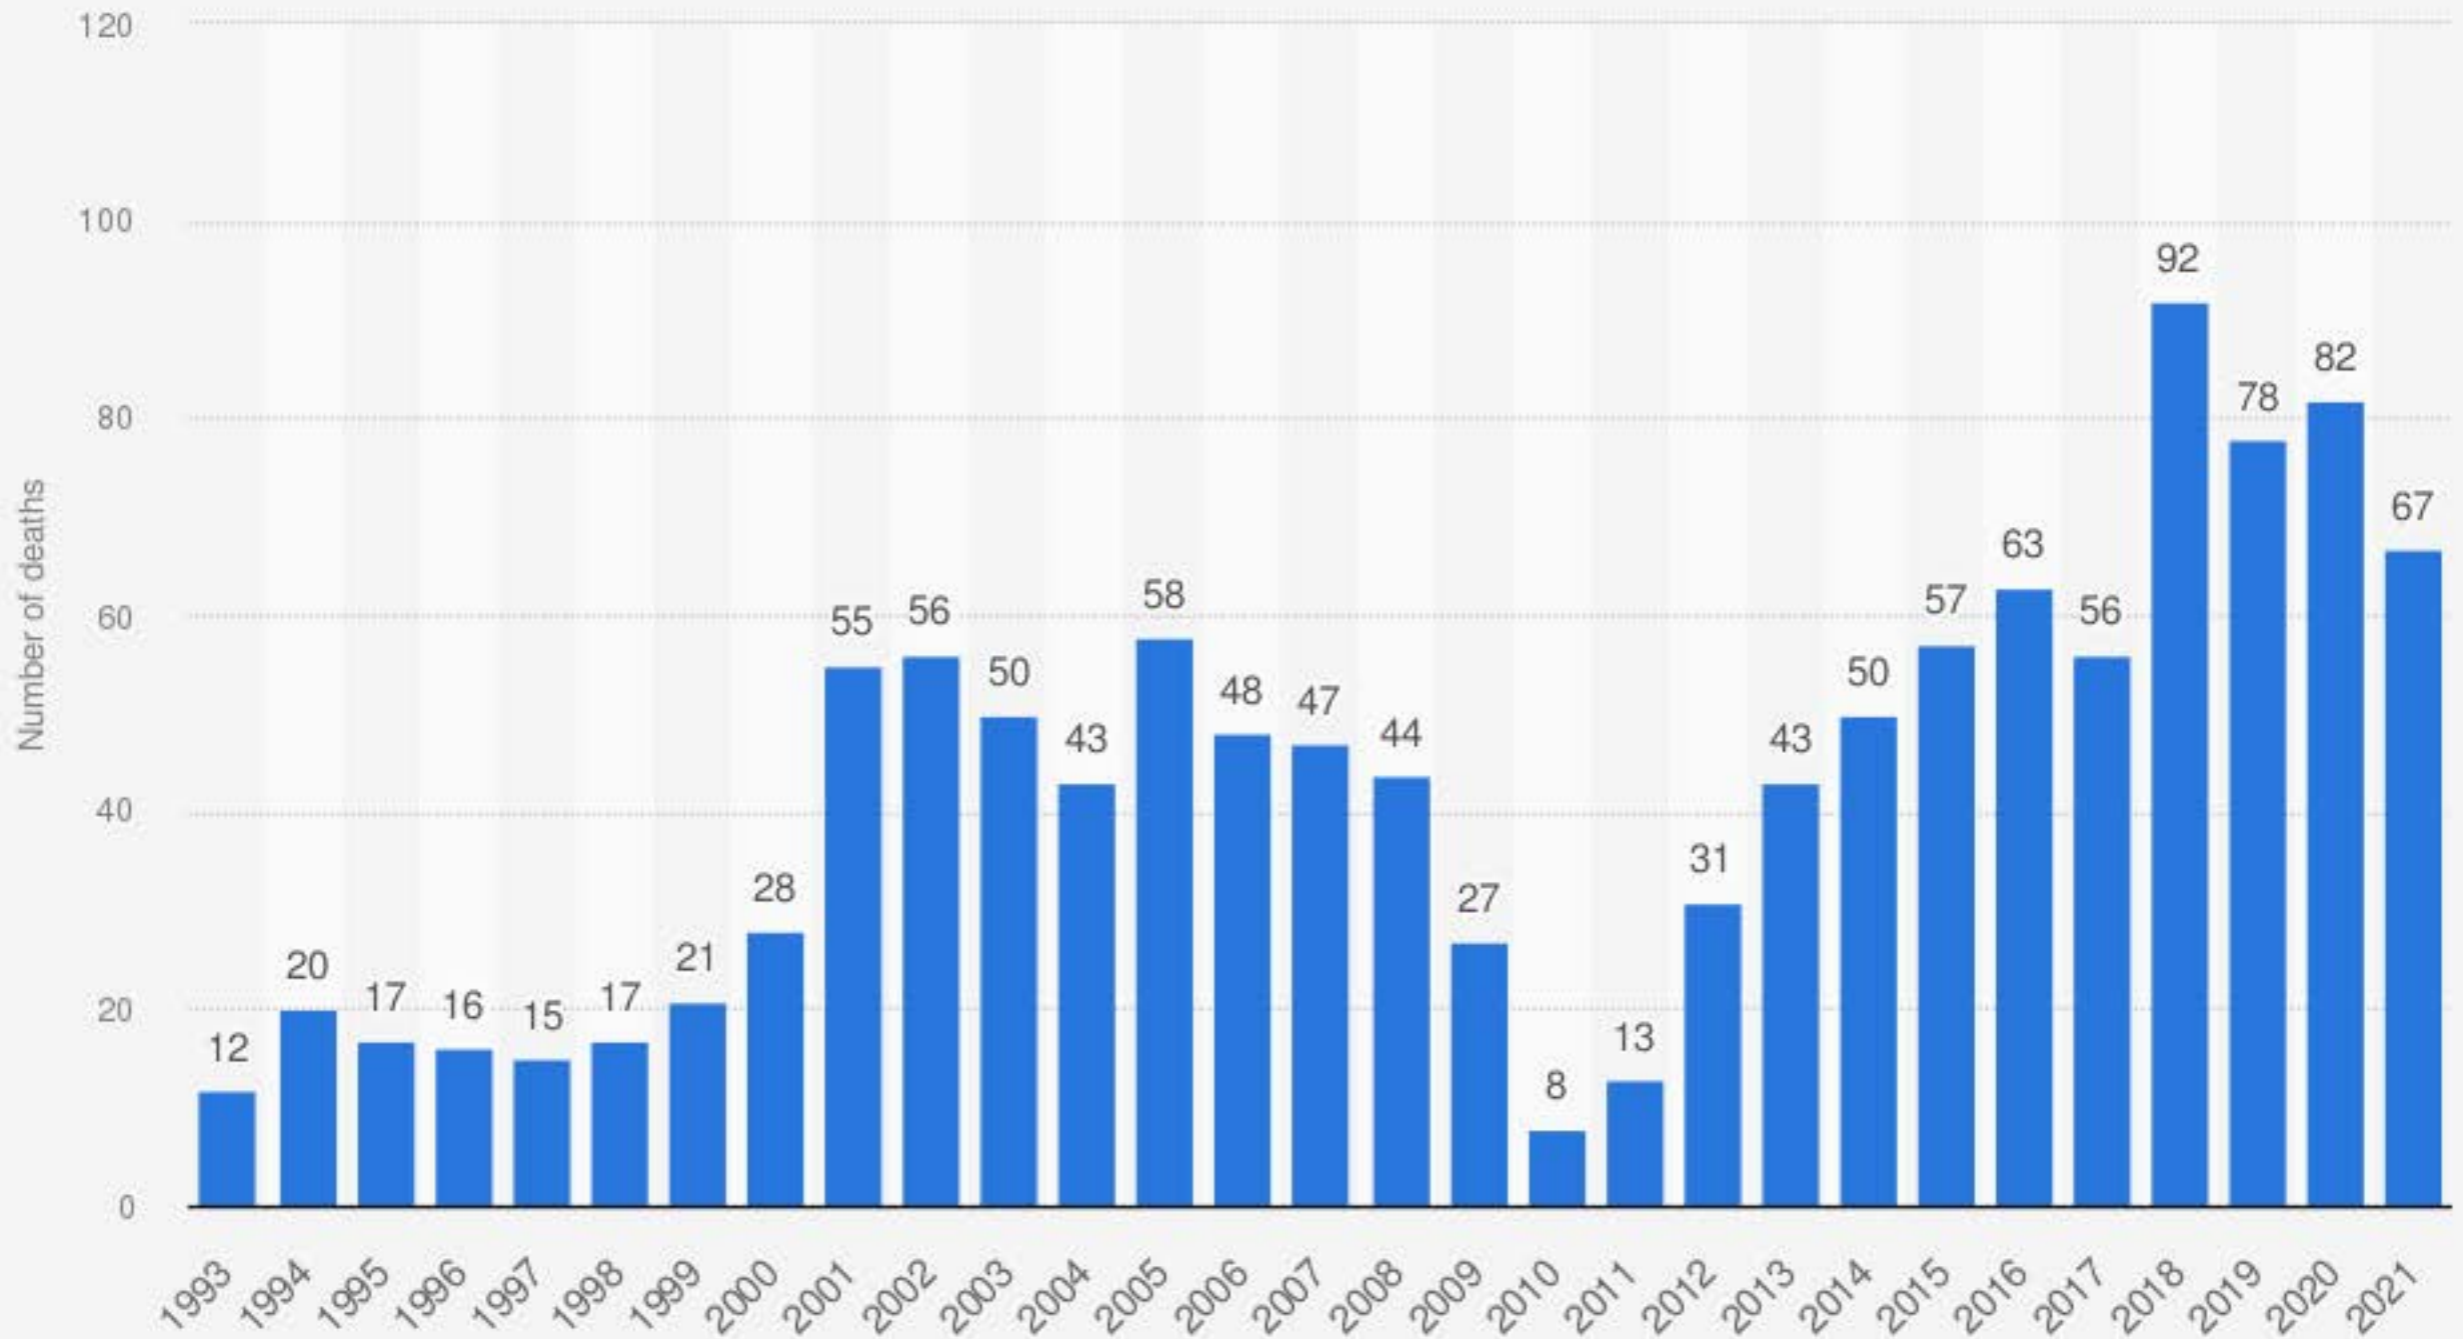

QMS Certification Services
