WA	78% 18 out of 23	84% 983 out of 1168
ACT	100% 3	100% 210
NT	100% 1	100% 65

Source: ANF Agreement database

Notes:

1. The ANF database maps aged care agreements covering nursing and care staff against the Department of Health and Ageing Service list as at 30 June 2012
2. The above figures are based on residential aged care providers identified as Catholic Church related and exclude facilities classified State Government that are covered by State public sector enterprise agreements. It should also be noted that the facilities identified operate a total of 17,062 beds, 1938 short of the beds by Catholic Health (19,000).
3. A further breakdown of agreement coverage is attached (based on the percentage of beds).

Catholic Church residential aged care facilities
