

I am a full time believer in the proper inclusion of the First People of this land, the many different Tribes of Aborigine.

Respect the Culture and grieve when we do gooders disregard their way of life. The many and tragic problems are the product of the lie 'that this land had no human beings when the English explorers arrived in 1788 with guns and rum!!!!

Please do not continue this traversivity for another ten years. Listen to the many different communities, large and small and hear the real issues.

There is wisdom in the groups. Things will not look the way we may like it, but if we really want what is best for our First People, let us remember that did a pretty good job of caring for their tribes long before Abraham.

Now let us take a look at the country and our Rivers after 223 and a bit years!!!!!!1

Please no more of this kind of discrimination.

Please read this and thank for listening. Peace.
