

The Friends of Warneet has approximately 20 members. For the last 18 years we have worked every Clean Up Australia Day, collecting litter from the foreshore, beach and bush areas surrounding the village of Warneet.

We know from experience that glass drink containers make up by far the largest proportion of litter collected.

We want to see a container deposit scheme introduced as quickly as possible because we believe it will be a very practical step in reducing the problem.

Our City of Casey has also recently voted to support this legislation.

Robin Dzedins, JP
Friends of Warneet Environmental Group-Convenor
