

Dear Sir / Madam

We, the KOREA VETERANS ASSOCIATION OF AUSTRALIA Inc., represent 597 Veterans of all the Australian Services involved in the Korean War 1950-1853 and the subsequent Peacekeeping years. We cover All States and Territories of Australia.

We wish to voice our concerns and very strong opposition for the proposed inclusion of three Trade Union representatives on a Board Managing Military Superannuation.

The proposed move would NOT be in the interests of our Veterans, Ex-service members or the Australian public.

Military Service, unfortunately, experiences unique situations beyond the issues encountered in Civilian life. It is, therefore, vital for Serving Military members to have input for their Superannuation. Serving Military members will be alert to the needs of the many special situations our forces encounter following their services given to Australia.

We, and they, DO NOT REQUIRE the INBALANCE of representation as proposed.

Thank you for the opportunity to respond to this important issue.

Yours sincerely,

Alan Evered,  
National Secretary  
KOREA VETERANS ASSOCIATION of AUSTRALIA Inc.
