Senate Committee on Health Insurance Amendment (Medicare Funding for Certain  
Types of Abortion) Bill 2013  
PO Box 6100  
Parliament House  
Canberra ACT 2600  
Australia

Dear Senate Committee:

I would like to state my strong support for the Health Insurance Amendment (Medicare Funding for Certain Types of Abortion) Bill 2013, which seeks to remove Medicare Funding for gender-based abortions in Australia.

Gender-based infanticide should not be an acceptable tax-payer funded medical procedure in Australia, as it discriminates particularly against unborn girls. Furthermore, every child regardless of gender has the basic human right to life. By providing Medicare funding, this abhorrent practice is further encouraged.

Sincerely,

Socrates Dokos
