Canberra ACT 2600

To whom it may concern

I support Senator John Madigan's Health Insurance  
Amendment Bill 2013

Medicare funding should not be available for s17(b)  
"the termination is carried out solely because of  
the gender of the foetus"

Abortion of any child is the most cruel of all child  
abuse. It's totally hypocritical to be horrified at the  
widespread abuse of children who have at least made  
it into the world and have a chance to recover  
from the trauma and make their contribution to  
society.

It's also hypocritical and unpardonable to support  
any move where a girl baby is the target. In this  
day and age there's been more hype about the  
equality of woman! We even have one for our  
Prime Minister !!

Yours faithfully  
Rita Short
