

With regard to TRIO COLLAPSE. Our family superfund lost \$ 140,000.00. When we queried the validity of Astara Strategic Fund we were shown a sea of documentation authenticating the fund. On the basis of that & what is now proven to be bad advice of \_\_\_\_\_ we went ahead with the investment.

The only way we could deal with the crisis was to put it behind us and get on with our lives. We are encouraged to save for retirement, but the risks are becoming too high.

Please put in place restrictions on financial advisers & investment Companies that will prevent this sort of theft in the future.

Thankyou
