
Dear Senate Committee,

I write to fully support Senator John Madigan's proposed bill to outlaw executing the unborn, simply because they are 'inconveniently', the 'wrong' sex.

Should the public not expect politicians to defend our society and particularly those who are the most defenceless of all, the unborn ? - **who have scientifically proven sensitivity to pain and emotional feelings, just like you and I.** Please do seriously think about my last sentence.

Yours sincerely,

Peter John Magee (RN)
