House of Representatives Standing
Committee on Communications,
Transport and the Arts

Submission No: 138

Date Received: 29/10/00

Secretary: June Holmes

Dear Sir,

The Adequacy of Radio services have gone
very poor. Our radio services have gone
backwards. A.B.C. Radio does a wonderful
job but it would be great to listen
to Far Northern news which pertains to
our area & not what is happening in &
around Longreach & district as we have
to do at the moment. This does not
help during our wet season when we
need to know weather conditions especially
when cyclones are threatening.

The country people are big racing
fans & now we denied the thrill of
listening to the races.

Communications have gone backwards.
While you & billions of people around the
world watched "Our Olympics" we saw
nothing.

In this day of modern technology
we still have nothing. Please help the country
people.

Alan Cross.
