

To whom it may concern

Libraries are just so important now. Reading is the basis of nearly everything that we do. Especially with the emphasis on the Premier's Reading Challenge.

Technology is also important and something that the library offers.

If you are doing all RFF this does not make the learning of the kids as effective as when their own teacher is there.

I am sent to relieve teachers for extra planning time which I do not get myself even though I am a fulltime permanent teacher for the DET., and then my existing timetable does not happen either.
