There are thousands of elderly Australians who have THEIR lost life savings because of the above and are unable to pursue their legal rights BECAUSE;

- 1] The regulators say they do not have enough resources.
- 2] The laws are not enforceable or are badly written.
- 3] The victims are not financial and cannot afford lawyers.
- 4] The State and Federal governments are seen to be a major part of the problem

5] Governments are lawyer friendly.

6] Courts do not dispense justice just assess legal debating teams with in many cases a biased viewpoint and lacking logical and/or common sense decisions, (why so many appeals and the so called political stacking of the High Court etc.).

7] Only the rich can afford good legal representation, the average Australian and especially the older Australian rely heavily on good, honest, fair laws with robust government agencies to enforce them.

The law is written and plundered by the legal profession. The major beneficiaries are the legal pliers of this specifically designed and cumbersome nightmare which can be manipulated to collect maximum fees and minimum benefit to the law abiding Australian. Australians have paid and are paying a huge price for a "service" which works against them instead of for them.

There are TWO ITEMS that are PARAMOUNT and DO NOT FUNCTION and that is;

1] SIMPLE, HONEST, FAIR LAWS.

2 STRONG, DEDICATED, COMPETENT, ENFORCEMENT AGENCIES
