Dear Sir/Madam

I am disappointed that this Inquiry hasn't had more exposure in the media so that many more submissions could have been included as I don't feel that 13 submissions gives a clear reflection of what the majority of Australians want or feel the government should be doing on their behalf, especially in regard to the Illegal Migrants coming to our shores.

In my opinion, Australia has been suckered into joining various groups set up around the world for their own benefit and also signing various agreements that is not clearly in Australia's best interests to have signed.

Many of these agreements, accords or whatever name they have placed on them need to be cancelled or torn up as they are derogatory to the Australian people as a whole.

The government and committees like the Joint Committee on Migration seem to have their own agendas as can be seen by the number of Migrant groups that have been allowed to submit submissions on their own behalf that will only make that group stronger in the eyes of the migrants that they are saying that they represent.

It would be good for someone from the joint committee to cold call on these groups and ask to see their books and as to how many they really represent.

Yours sincerely
