#### **Re : Bio-prospecting and Regional Development in Australia.**

Dear Sir/Madam,

In regards to the above Inquiry, we provide the following brief information in support of our commitment to develop this industry.

We believe Kangaroo Island is an ideal location to establish a model regional bio-prospecting industry, based on the unique bio-diversity of this 'natural laboratory'.

The KI Nature Lab project will provide a framework and opportunity for the community, to the extent they wish to be involved, from shareholders to employment and management.

Should you require any further information please contact the applicant.

Yours faithfully

Don Chambers  
Managing Director  
Global Recycling P/L
