Chairman

Hal Morris

Executive Director

AUSTRALIAN LOGISTICS COUNCIL

Australian Logistics Council is

- A partnership between all Australian Governments and senior industry leaders focused on the 'efficiency in delivery' of logistics
- Including Chairmen or CEOs from
 - Major freight logistics customers
 - Logistics providers across road, rail, sea and air as well as from all stages of the logistics supply chains
 - Both domestic and international
- Jointly funded by governments and industry.

AUSTRALIAN LOGISTICS COUNCIL

ALC Priorities

1. The right infrastructure
2. Capable people
3. Streamlined rules and regulations
4. Understanding the future of Transport and Logistics (T&L)

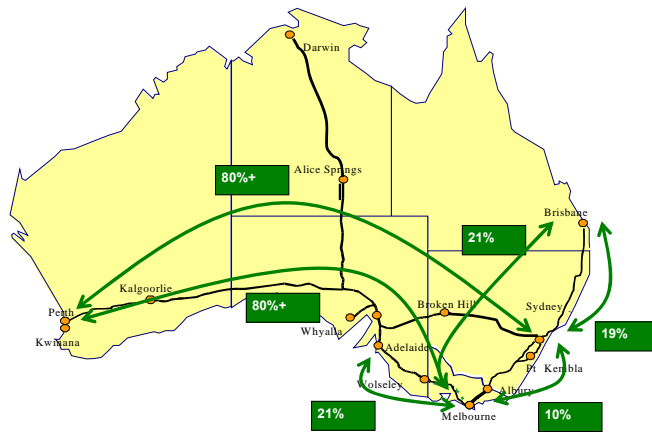

AUSTRALIAN LOGISTICS COUNCIL

Infrastructure Priorities

- Preparing the rail system
- Investing in access to ports, airports and intermodal terminals
- Integrated freight transport plans
- Regulatory consistency

Recommendations

1. ALC offers partnership with industry in driving improvements in efficiency and capacity on a supply chain, major route or area of national significance basis
2. ALC is committed to continuing to work closely with NTC on reform to achieve 'light handed' and nationally consistent regulation
3. ALC seeks urgent and decisive government action to implement these national priorities
