

To Whom it may concern,

I am concerned that staff at Goodstart Childcare new about this coming in before it was announced. I am also concerned that the two tier wage system with \$300 million dollars will push private (small) centres like ours out and staff wont work for us. Also what happens when this money dries up? Surely staff will not take a pay cut after two years and isn't pay cuts illegal under Fair Work. I feel it was all pushed through and also have concerns at the Board Members who are all in a Clique!!! Check the names out and the organisations they are from and make your own assumptions. Regards Kellyanne Giannatti
