The Standing Committee on Infrastructure and Communications Inquiry
Re: Enhancing Community Consultation

Dear members of the committee,

I refer to the Telecommunications Amendment (Enhancing Community Consultation) Bill 2011 and would like to add my support for this important amendment. I feel strongly that the potential risks of exposure, from Mobile Phone towers, has been downplayed to the detriment of community health. This bill is a step in the right direction to address some of these issues.

Thanks

Kevin Sims
