FAX "

To Mr Glenn Worthington Secretary.

Received a letter from Mayor Felicity - Ann Lewis president of LGA. They always tell the people good points and not what is behind it all, like any other business.

The reason why the LGA wants the local governments on the constitution is. The State Government cannot fire local councils. Can one imagine what council rates would be like and land taxes. I have heard this twice on radio why Australians are not investing. Now the Chinese are coming in and their shareholders by invitation. They are going to be bit or broke, as Australia is a high risk country, people are only managers. This is worse than Communism and Hitler.

In the constitution $\frac{2}{3}$ of Australian people are not in favour of local councils. What people don't see local councils are doing the dirty work for State Governments, local councils 99% of them are crooks like Bunnside Council Adelaide. Councils get away with it as they do the dirty work for State Governments. Councils and State Governments are good at filling their own pockets, send them all out to work for their living or start their own business 99% would be a failure, all they know is increase charges. Kindergarten children can do this.

Yours sincerely,
Cr. A. Walker.

200 sheep agistment
30[¢] each per wk.

\$ 60.00 per week

90 days.

\$ 540.00 for 3 months

Council rates \$554.10 every 3 months
\$14.10 out of pocket, not counting time
consuming and expenses.

It's hard to see why people are not investing
and selling properties.

Cr. A. Walker.
