

Petition
To Halt Expansion of Uranium Mining at Olympic Dam

To the Honourable Speaker and Members of the House of Representatives assembled in Parliament:

This petition of the citizens of Australia draws to the attention of the House that there are plans to build a 3 kilometre wide and 1 kilometre deep open uranium mine at the Olympic Dam site near Roxby Downs, 500 kilometres north of Adelaide. If built, radon gas will affect all our cities and country towns. If the government allows the building of this mine we will have problems for thousands of years. Your petitioners therefore ask the House to step in and halt the expansion of the Olympic Dam site. [This petition has been initiated by an 11 year old Kempsey school girl].
