---

The insurance premium for my unit complex increased from \$4288.00 last year with [REDACTED] to \$7324.00 this year with [REDACTED] after using a broker to find the cheapest insurance provider it has nearly doubled with an increase of \$3036.00 -There are only 6 units in my complex which means \$506.00 increase per owner. The body corporate levies were difficult enough to pay before the insurance premium increase as I am a single income owner but now they are unaffordable and I may have to sell & rent
