

Blessings to you,

It concerns me that you are wishing to create so many heads of governments

How can a country run in unity with so many individual governments, All of our systems will fail with this in order.
The schooling system our medical system our roads ect.

There will be more fighting with each of these systems as they will start to be more concerned with the monies side of things than what they will be of supporting the communities to grow and be in harmony.

Up until now I have not held much thought about our parliamentary system, and I can that that has been a very big mistake for you are creating a country of separation rather than one of Unity.

I honour all that you have done up until now, however you are seemingly starting a very slippery slide to self distraction, and it is time that the community to start showing you the way, and we have started.

A leader is not there to rule the people, the leader is there to take in all that the followers wish for and rule on this.
So Please step of your own pedestal! - Thank You

May the Universal Rays bless you and guide you so we may all step into alignment with what will serve this wonderful country, this Amazing Beautiful Planet so All may live in Harmony, Peace and Unity.

may the Peace of God guide your way
