

PARLIAMENT OF AUSTRALIA
INQUIRY INTO MULTICULTURISM IN AUSTRALIA

Committee Secretary, Joint Standing Committee on Migration, jscm@aph.gov.au

To whom it May Concern:

I grew up in a large, impoverished, political household and post war migrants were welcome in our home. They expected nothing and were grateful for the opportunity, they worked hard and they integrated into the community and did us proud. Times were hard but we had a healthy respect for the law and we had a low crime rate. Later on I worked with aboriginals and disadvantaged youth, women, and people from non-English speaking backgrounds, so I do not believe I am racist.

When the white Australia policy changed multiculturalism worked reasonably well and the biggest problems seemed to be some conflict between the different cultures and a rise in crime. But there were lots of good contributions made to this country and people eventually assimilated, until muslims arrived. They did not assimilate and we were reassured that the children of these migrants would become Australians, but that did not happen. The crime rate soared and many of the following generation were hostile. It wasn't such a problem while the numbers were small, and many appeared moderate but the more muslims that arrive in this country the more radical, demanding and ungrateful they are becoming.

Last year alone, I believe there were 6,000 illegal boat people/refugees/asylum seekers/country shoppers/freeloaders (whichever applies) arrived in this country and most of them were from radical Islamic countries, which is discriminatory in itself. Yet little has been done to prevent the people smugglers from bringing these people through our back door at the expense of genuine refugees who have been waiting for years. Surely our leaders represent us and we have a right to say who comes into this country. Yet we are being silenced by "political correctness" and if we dare to speak the truth or express our concerns for the security of our beloved country we are called racists or Islamophobics.

There is no secret that Islam is rising to re-establish the Caliphate and control the world under Islamic and sharia Law, yet our politicians seem to be blind to what has happened in England and the rest of Europe that is leading to civil war. This week muslims were rioting in London and calling all muslims to wage war on England France and America. They are being supported by the rising Socialist movement who share the same desire of totalitarian world control. What has happened in Europe is being implemented here in Australia and any politician who cannot see it either has their own agenda or they are in denial. Last week in America muslims were demanding the dismantling of the Statue of liberty as they find it offensive, and they refuse to acknowledge the grief and wishes of the people or accept any responsibility for September 11, by building a giant victory mosque at ground zero. Islam uses freedom and democracy to subvert freedom and democracy.

1. RADICAL ISLAM

Islam is a supremacist totalitarian political ideal. It controls state, law, religion, finance, defence and all aspects of personal and social life. It is not compatible with western Democracy. Its agenda is to invade, populate, convert and conquer western countries and implement sharia Law.

Islam has been at war with non-muslims for 1400 years since Mohammad went on a rampage throughout the Middle East raping and pillaging, forcibly converting to Islam, terrorizing, murdering and enslaving and conquering countries all the way down to Indonesia til eventually his followers were defeated by the Crusaders. They have re-emerged with new tactics to achieve victory over the west by stealth and take their host countries from within. Petrodollars can often buy anything or anyone.

2. RELIGION

People assume a similarity between Islam and Christianity but there is no comparison. God, the creator taught values, Mohammad the pagan moon god was a deceiver. Jesus was a healer who preached forgiveness, Mohammad was a revengeful warlord. The Qran teaches death and destruction while Christ came to change the way of life depicted in the Old Testament.

3. QRAN condones/instructs//ratifies.

Good points in qran only relate to muslims. Deprivation of Dhimmitude.
Qran is contradictory and open to interpretation.

4. SHARIA LAW (Divine Law)

The Qran is the constitution of Islam and Allahs law overrides the law of the land.
Women are degraded and devalued. They are responsible for the actions of men.
Women are blamed for their rapes and sentenced to death by stoning.
Uncovered women are to blame for mens sexual urges. Men are not held accountable
Burquas are not a religious requirement but left over from slavery. Political.
Sharia favours men over women. With legal, inheritance, divorce and children.
Islamic countries are controlled by dictators and religious leaders.
No separation of religion and state. Forced Female Genital Mutilation.
Death sentence for blasphemy, homosexuality, adultery. No human rights.
Conducts stonings, lashings, hangings, beheadings, acid burnings, severing limbs.
Mosques are known for Preaching hate and Recruiting members of Taliban.

Persecution and murder of Christians and other non muslims in Islamic Countries or countries being overtaken. eg. Egyptian Christian Coptics. Pakistan and Afghanistan. Hilal is the ritual barbaric, cruel killing of animals. Sacrifice to Allah of animals at Ramedan. Children forced to fast. Self mutilation of adults and children,.

5. RADICAL MUSLIMS

Criticise our way of life when their religion is the most depraved on the planet.
Demand services and priviledges they do not get in their own countries.
Completely intolerant of multiculturism and other religions and cultures.
Practise apartheid by demanding separate facilities and different rules.
Call Australian women sluts and think its OK to rape them for not being covered.
Believe only white Australians can be called Racist. Reverse racism.
Persecute and racially vilify white anglo saxon Australians. (caucasian) Refer to them as white trash, criminals, illegal boat people, accuse them of killing the aboriginals and stealing their land. Attack white Australians to demoralize and disempower.

Re write our history and claim they have been here for 300 years.
Convinced the aboriginals they are descended from the sufi muslims 4,000 years ago.
That muslims are here to help them take their land back off the colonizers.
Vilify our soldiers for being in Afghanistan. Our soldiers are over there risking their lives whilst the Afghanistan men who should be protecting their country and families are sneaking in our back door demanding protection.

Immigrants claim they will be killed if we send them back, but then make frequent trips to their home countries and want to change us to the country they fled from.
High percentage of disabled children as a result of wearing burqas and inbreeding.
Converting criminals in gaols, aboriginals and vulnerable people to Islam.
Preach hate against Christians and Jews and Americans.
Misusing councils to Boycott Israel products and force "neck to knees" at the local pool for everyone at Ramadan, which is against the Australian constitution.
Forcing us to eat Hilal products without our knowledge or consent
Infiltrated, Schools, universities, local government with Islam.

Complaining about our Christmas and Easter Celebrations being offensive and wanting them to be removed from our schools and childcare centres.
Inviting radical leaders, banned from other countries, to speak on Sharia law.
Demanding Islamic state and sharia Law. Bragging about taking over.
Separate and segregate into own communities. Antisocial behaviour.
Burqas are a health and safety hazard, a security risk, offensive and threatening.
Refusal to carry alcohol or guide dogs in taxis.
Organised Arabic crime, increase in drug trade. Carrying Machettes.
Argue the bible, insult your mother and threaten your life.
Have demanded much but contributed very little to this country.

THESE ARE THE PEOPLE WE ARE WELCOMING INTO OUR COUNTRY

We are being invaded by people who are dominating and have an agenda to control the world. People who break our laws before they arrive illegally. who do not get along with other migrants, who burn down accommodation and believe it is their God

given right to be admitted into our country. It is costing Taxpayers millions of dollars to house these families in public accommodation and Detention centres, whilst the Queensland flood victims have no-where to live and thousands of people sleep in the streets. They complain about their accommodation whilst the Japanese have nowhere to be evacuated to and would be grateful for a bed, safe food and clean air and water.

Never has an influx of immigrants behaved in this manner, caused the reaction they have or split our country like Islam, yet our government and Socialists, and ignorant people are condoning their behaviour and appeasing their demands. Each time their demands are met sharia law is creeping further into Australia and Australian culture is disappearing, including our sense of humor. Honour killings are being committed and people are not being informed about the identity of the perpetrators. Nor were the identities disclosed of the people who gave Australia a bad name for racism. Boycotting sanctions against Israel has little to do with occupation of anyones land. They hate the jews and want them dead and pray to Allah to help them achieve this. I know there are many good muslims in Australia but they have to obey their leaders.

We may be a secular country but Australia was founded on sound Christian values. We simply cannot have many cultures existing independently. There has to be one language,, one set of rules, one government and one law supporting the same decisions, the same law enforcement, the same army Separate communities turn into “no go zones”, become tribal and competitive which turns to civil war. This is a small country that cannot sustain a huge population and we live next door to the largest Muslim country in the world,. Yet unpatriotic PC socialist want to open the flood gates and let everyone in to create chaos and anarchy.

Our political and religious leaders are betraying the people of this great country by appeasing Islam and if we do not put a stop right now to Islamic invasion we should call a halt to immigration altogether. Islam should remain in Islamic countries as their beliefs are too far removed from 21st century western civilization. We need to expel immigrants who flaunt our laws. We should disband the United Nations who have lost their purpose, and bring our troupes home to defend our own country. It should be mandatory for politicians or anyone who defends Islam to read the Qran. Restrictions should be placed on the building of Mosques and the practise of this cult in Australia, so they cannot block off and take over our streets like they do in France or broadcast their prayers into the streets five times a day. Those muslims demanding sharia law and Jihaad should be gaoled and deported.

No one has been listening to the genuine grievances of the people. Instead of action being taken, they are protected and we are discriminated against. We, the real Australians are waking up and feeling angry. We are not just concerned for the future of our beloved country, that our forfathers slaved and died for, but we are terrified for the lives of our children and grandchildren who will lose their human rights and at best have to survive in a 7th century barbaric, 3rd world existence.

Yours faithfully,

6 April, 2011
