Joint Standing Committee on Migration
Submission no. 272**

I am very concerned ONLY with the migrants of the past 15-20 years. All the handouts they receive, what happened to "no work no money" of earlier migrants? The changes they want to make to OUR culture are stunning. Imagine that happening in their countries or origin. If hired to do work (around my home) they only know one word CASH. The crime that has arisen from THEIR culture in my country is scary and astronomical. At 70 years of age I have seen many cultures arrive in Australia, and when young had many many migrant friends. NONE as different as the current lot of peculiar minded incomings. Why are all these races admitted to Australia SO VERY EASILY and citizens of the USA (for example) cannot be handed the same options? It appears that one's application must have to originate from the bottom of the barrel.
