

Submission Number: 35.1 *A*
Date Received: 12/12/08

Further to my email of Friday 5th December, Dr Karmel indicated that he would check a figure quoted in the SOS income data submitted by NCVET to the Standing Committee on Employment and Workplace Relations' inquiry into pay equity (page E&WR 22 of the Hansard Report).

The figure of 3,100 was reported in Table 9: Outcomes of VET graduates six months after completing their training by sex. Specifically, it was for female graduates employed full-time who are technicians and trade workers. We confirm that this figure is incorrect and should be 31,000.

Please accept our apologies and find the revised table attached.
