

Submission Number 02

To : Secretary of Committee

From: Buffalo Brewery

The tourism industry in general has great financial support from both federal and state governments.

However, we have had ongoing disputes with wangartta council that all funds made available are going to the wine industry because of the influence put on council by influential stake holders in the very strong wine industry of the legends wine and high country. I would like someone of your group to call so a can produce evidence of these happenings.
