Committee secretary

My name is Jarrod Dawson, I live in Adelaide & are very interested in the outcome of the submissions that the committee is presenting to parliament. We have 3 children aged 12, 8, & 6. My wife & I seperated in January & were given a monthly amount by the CSA of \$1125.25 per month based on shared care. My wife has been able to fully support the children on this money & her entitlements from the government for being unemployed. I am disgusted that just because I choose to work harder & earn more money for the last financial year that my monthly amount payable to my wife has increased to \$1636.42 per month, even though I have them & support them on top of this amount when they are staying with me, some 1 day less per week than my wife.

Please keep in contact with me regarding the committees submissions, I would be more than happy to supply the committee with my details in full & help in any way to work towards getting these laws changed.
