

---

To the Honorable the speaker and members of the house of Representatives assembled in parliament. The residents of Canberra, ACT draws to the attention of the house to the plight of child soldiers of Uganda, Sudan, Somalia and Algeria. Your petitioners therefore request that the house take immediate action by increasing the awareness of the Australian community in regard to this issue by raising the matter in parliament. In the hopes that this grievous atrocity against children will cease.

The three things that we ask for are as follows:

- The broadcast of invisible children on ten, prime and win.
- The increasing of news articles written in the newspaper.
- A radio broadcast of people who have witnessed child soldiers
