

TERMS OF REFERENCE

The 2002 -2003 annual report of the Department of Transport and Regional Services refers to the implementation of a number of key strategies to:

- support safer transport services;
- lead the development nationally of more consistency in rail regulatory arrangements; and
- develop the Commonwealth's role in rail safety and investigation.

Arising from this the committee is inquiring into some of the measures that have been proposed to improve train visibility and reduce level crossing accidents. In particular, the committee is examining the practicality of installing additional lighting on trains.
