I reside about 10 kms west of Daintree Village and north of the Daintree River. I have a radio, no t.v., (a dish is required and more electricity than my small solar setup can produce.)

My radio, a reasonably powerful one, most days can receive ABC north, (nearly always 4 AM and 4 CA (which do not interest me.)

This leaves me with a choice of one station. I would like to receive radio national full time (at present it comes in on the shortwave band but is not reliable, drifting in and out so badly its not worth the trouble.)

Yours faithfully

Stan L Wallin

P.S. The service from the radio telephone is equally as poor.
