

To whom it may concern,

My opinion in regards to this Early Years Quality Fund is that it is creating more inequity amongst Early Childhood Educators than the good they are hoping to establish and achieve. The Union stating that a pay increase is necessary to retain Quality educators

is an absolute requirement but this fund will cater to only a very few, what happens to the rest? What happens after the 2 years lapses? I feel this fund should be abolished or every educator deserves it, an equal, at least a 2% pay increase to every educator or it should be for none.

Kind regards,

Sharmalee Karunaratna
