29 July 1999

The Secretary
House of Representatives Standing Committee on Environment and Heritage
Parliament House
CANBERRA ACT 2600
Environment.Reps@aph.gov.au

Dear Sir / Madam

Catchment Management

Please find attached a submission to the House of Representatives Standing Committee on Environment & Heritage Inquiry into Catchment Management.

The North Coast Catchment Coordinating Committee would like to highlight the existing catchment management model in NSW which is successfully coordinating regional natural resource and environment management. The NSW North Coast has one of the most established, and we believe successful, regionally based community coordination, planning and implementation models.

We would also like to take this opportunity to invite the Standing Committee to the North Coast so we can demonstrate the strong community support and environment management activities we have achieved, and are continuing to achieve, in our region.

Yours sincerely

Peter Wall
Chair
North Coast Catchment Coordinating Committee
