RE: PUBLIC HEARINGS ON AUSTRALIA'S ACTIVITIES AT THE UNITED
NATIONS (UN)

THE UNITED NATIONS ORGANISATION SYSTEM PROVIDES THE EMBRYONIC
BEGINNINGS OF A FRAMEWORK FOR WORLD ORDER.

My own personal views concerning the United Nations do not auger well for this particular institution. This organisation consists of a body of persons, persons not elected by citizens of Countries, including Australia, which in my opinion, is totally wrong and un-acceptable and un-democratic. A self-opinionated, arrogant group of people, obviously in contempt of the bona-fide citizens of various countries of this world. (The indifference and apathy of the citizens gives some credence to that) as all power seems to have been transferred by devious means to the un-elected, questionable powers of the UN and from statements and quotes by our so-called leaders during the past years, some of the citizens are beginning to piece together exactly how (they intend to obtain their objective.)

As the WTO is increasingly intruding into people's lives, no matter who they are or where they live, through covenants, treaties and treacherous External Affairs powers, Australia is now subservient to the UN. The more services are privatised, the more unmet needs and in-equality there is likely to be.

The GATS liberalisation of services is just one of the ways the WTO is responsible for increasing in-equality. As far as I am concerned, the UN and the WTO are closely linked and there should be a set of strong rules to protect the interests of the weak against exploitation by the powerful.

Also, this "New World Order" does not auger well for ordinary citizens like myself. I feel that it will only benefit the rich and powerful and thinking of happenings in the past, POLYGLOT PROBLEMS, ETHNIC STRIFE, CULTURAL CLASHES are tearing apart the social fabric of Western Nations who, it seems to me, are being held responsible for just about anything and everything in this world.

Australia has signed a great many of, in my opinion, dubious agreements with the UN and Australia is far **TOO MUCH** involved with them to the detriment of Australia. Even the so-called "rights of the child" treaty, it seems to me that the children it is supposed to protect, nothing is happening to protect them but our own Western children and their parents carry the brunt of such legislation. Since World War 2, labour shortages - real or imagined - have been used to bring un-assimilable immigrants into Western Countries (incl. Aust.) and by doing so, re-shaping the host countries' culture, customs, language and religion. You do not need me to tell you who is doing this?

I am totally opposed to one particular religion, which for its followers, is not only religion but a way of life, where in some parts of the Western World, these followers are lobbying to have their religious laws put down in the host country's statutes. This very situation would occur here in Australia as well if we let them. What ridiculous, too stupid to speak of, totally un-acceptable requests and no doubt, are being heard and taken on board by trendy officials and humbuggers.

If such situations succeed, I hope all the powers that be will live **TO RUE THE DAY** they consented to this.

The UN is not doing the job PROPERLY, whether it pertains to Foreign Affairs, Defence and Trade and I desperately want to see Australia get out of this "globalist gangster" organisation the sooner the better as life for all of us but the RICH AND POWERFUL, will in years to come, become almost unbearable to live.

We cannot depend on current government, no matter at what level, no matter which Party is in power, as many members cannot see beyond their annual salaries and perks and the bureaucrats cannot see beyond their MASSIVE annual salaries and perks.

What are we, the voters, supposed to think of these FAT CATS? No need to tell you that either.....
Please, please, do not sign anymore treaties!!!!!!

I totally reject the UN and do not recognise them. The Australian Government should do the same.
