c/o

I do not consent to constitutional recognition of local government, and the number of negative results already given by many electors such as myself in the several REFERENDUMS to date until the present time should be enough to show there are a majority of electors OPPOSED to the artificial creation of a third tier of government in this country. Further, the unlawful levying of TAX (council rates) are bleeding a hurting nation unnecessarily at a time when we cannot afford to support the corporations masquerading as local councils, and it constitutes an outrageous impost!!! Rates should be returned to ratepayer, public works should be raised through NATIONAL banking, and the CORPORATIONS masquerading as local councils disbanded!

Miss M. Crerar
