Dear Sir/Madam

**Consultation Period – Northern Australia
Project to convert Declared Weed of National Significance**

We write to you on this occasion to bring to your attention a significant Project for Northern Australia that has been under development for a number of years. More information on this project is included in the attached materials. In short this Project utilizes some of the unfavourable characteristics of Northern Australia in a positive commercial venture that has the potential to:

- Create up to 4 distinct business ventures;
- Directly and Indirectly employ 132 workers;
- Generate annual sales income , once established in the order, of \$100M;
- Develop unique skills and industries that are not present in any other part of the Country;
- Help address some of the energy supply and other issues that are impeding Northern Australia's development; and
- Foster a sustainable enterprise that has both domestic and international markets.

We would welcome the opportunity to further Brief your Committee and/or provide further information in this regard. Any enquires in this context can be directed to the writer on

Yours faithfully

Brad Carswell
Director
Encl.
