Submission No. 106

The Treaty Commission
Dear Sirs

As an elderly Australian & a very proud one, I must protest at the World Court Treaty that is being proposed. We have sacrificed so many things in the name of progress, that if this goes through and we have other countries deciding what should happen here - over & above our own laws - would be a tragedy. I cannot imagine what is in the minds of those pushing this agenda or why.

Please don't let this happen.

Yours sincerely
Joan Watson
