

Submission No. 115

The Treaties Committee

Dear Sir,

Please be advised that, with regard to the UN Treaty on Criminal Law, currently under scrutiny by your committee.

My wife & I are absolutely opposed to the signing / ratification of this or any further UN Treaties which in any way dilute Australian Sovereignty.

It is our opinion that this country is capable of solving our own problems and is a model for the world. We do not need nor will tolerate any further interference from any foreign source.

We further believe that Australian Govts. should be investigating cancellation of some current treaties rather than wasting time and money on new ones.

Yours faithfully
