Hello,my name is,

Jeff Kennedy

I will give the insurance costs for our apartment over the last 2 years to highlight the significant rise in the cost of the premiums .These are for 6 monthly periods..

01/07/2011 to 31/12/2011 =\$250.62

01/01/2012 to 30/06/2012=\$1,585.28

How can these increases be justified?Why are there no controls of these increases?The state and federal governments seem not to be concerned at these outrageous increases.Why are they so silent on the issue?

Regards

Jeff Kennedy
