~~Best Janet Holmes~~

I would like to add these remarks if I may concerning the radio station and the inquiry I believe the notice for the inquiry was published in a number of news papers none of which we ever buy and I would suggest that as it has most of all to do with people in the Central West area it should have been published in our local papers and as a matter of interest Paul Jolly started a group called The Party, Party and that was how we found out about the inquiry from a member of our Party Party

and I would also like to bring to your attention a hiccup, you might call it

It was on Saturday afternoon early November we were listening to 2PK and I presume a tape must have got stuck and for about 35 minutes the same 2 advertisements were repeated over and over and we rang the radio station in Parkes and the phone rang out several times then we rang 1312169 and was told to ring Parkes again so we turned the radio off. I have never ever heard of this happening in the whole time of 2PK.

Yours Sincerely
Mr & Mrs R Wilson
