To House of Rep
Radio Enquiry
OLD 4872. ph
40937205

I suggest that persons employed should be chosen for their ability to speak clearly & pitch their voice low & not fast.

as reception is not perfect on old I find that I only hear about 60% of what announcers say. Female voices are much more difficult to hear - especially mouthful announcers.

ABC stations frequently have a music background which is horrible & makes listening difficult - That should be forbidden.

If you wish to speak with me my ph is above
Commercial stations should be
